
Card Creator Torrent Download [full Version]

Oct 2, 2020 - Business Card Designer 12.20.1 Serial Serial.

Supports all types of Avery and other paper, both American and metric (A4). A large number of ready-made templates and logos are included. In addition, the program allows you to create your own templates and then apply them to all necessary documents. It is possible to add various effects and design, including multi-page documents. There are flexible functions to create watermarks, both for the document and for each page, as well as for the title page.
